GET TO KNOW GRANT THORNTON

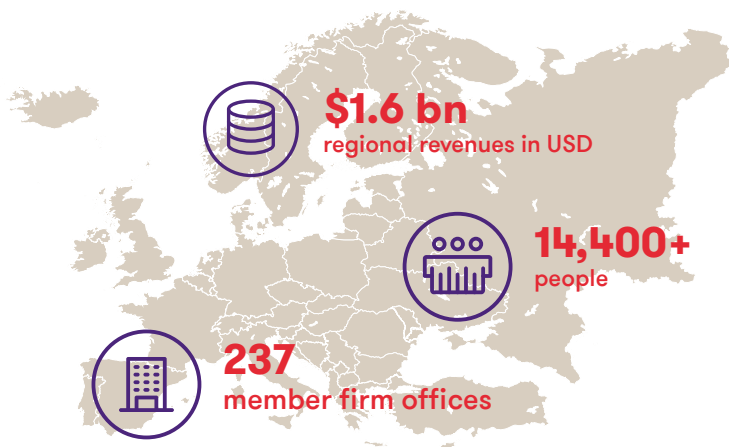

Grant Thornton is one of the world's leading organisations of independent **audit, tax, legal and advisory** firms. We are committed to delivering exceptional quality and we are constantly evolving and developing alongside our clients, helping dynamic organisations unlock their potential for growth.

In **Europe**, Grant Thornton is able to service its customers through over 14,000 professionals located in over 40 countries across the continent. We work with dynamic organizations of all sizes to help them understand and overcome the challenges they face and to seize the opportunity to grow. Grant Thornton also works closely with Public Sector bodies across the continent and share its agenda for sustainable growth.

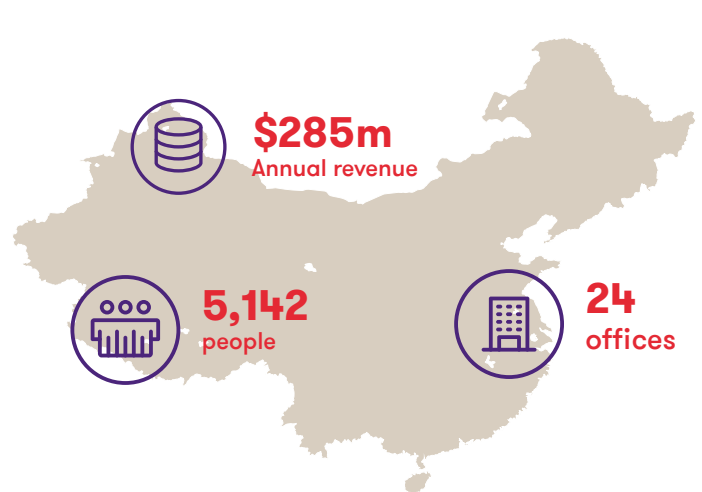

In **China** We are one of the first accounting firms qualified to engage in securities business, futures and financial audit work, and audit work for extra-large state-owned enterprise. We provided services to over 500 clients in 2017.

We want to help you unlock your potential for growth

EUROPE

CHINA

China Europe Business Group (CEBG)

Are you looking to invest in China or Europe? For many, selling into a new market and setting up operations in another country is a step into the unknown.

Lack of familiarity with the territory or little experience of doing business overseas means it can be difficult to bring your vision to life. Our China Europe Business Group, combining the expertise of our member firms, can provide advice to guide you through any market entry strategy.

We can help you:

- Identify strategic business or investment partners in China or Europe.
- Advise on market entry and navigate local market complexities through our on the ground specialists in China and Europe.
- Provide growth platforms for Chinese companies entering European markets.

Client success

We support clients of all sizes and in all industries, but there is one thing they all have in common: they work with a professional services firm that listens closely and executes with speed and quality.

Quality

We are committed to delivering exceptional quality and we seek to continuously improve in this area. Quality means more to us than any one statistic and it is the foundation of all we do in our firm. Quality is tied to excellence, one of our firm's core values, and it drives all our processes and protocols.
